Think it Another "Yorktown

The Yachtsman, of London, thinks that many British yachtsmen will be 'surprised and humiliated at the sur-"surprised and humiliated at the sur-render of the Royal Yacht Squadron to the New York Yacht Club." The Yachtsman also says that it foresees great difficulties should Lord Dunrayen win the America's cup and Germany or France challenge for that trophy. On the other hand the Yachting World prints the deed of gift and says that it contains nothing to warrant the con-tumely with which it has been assailed.

Too Much Petty Jealousy.

There is considerable friction in the formation of the syndicate to build vacitat for the defense of the America's cap. If nothing definite is done by next vachts for the defense of the America's cup. If nothing definite is done by next Monday night it will be proposed that the New York Yacht Club ask for subscriptions to defray the cest of building a yacht and appoint a committee to attend to the building, sailing and racing of the vessel. The hitch in the formation of the syndicate appears to be a little personal feeling or petty jealousy between some of the members of the club who have volunteered to subscribe money to build a yacht. It is no easy matter to raise the amount of money that will be necessary to build and sail a first class yacht this year. It is stated that \$175,000 will be required and few are disposed to go very deep into their pockets. pockets.

TREND OF TRADE. R. G. Dun & Co.'s Review of Business and

Industrial Outlook, New York, Jan. 11 .- R. G. Dun & Co's weekly review of trade which is sues to-morrow, will say:

Neither the beginning of the new year, nor the failure of the currency bill has brought any material change to business as yet. The idea that business would suddenly take a new start after the helidays had rather less foundation even than usuai, but the hope of strong raviyal a little later is still cherished by

revival a little later is started and any.

The weekly output of pig iron January I, reckoning in some furnaces only temporarily out of blast for the holidays or repairs, was 168,414 tons, against 168,762 December I, showing practically no change. But stocks of unsold pig increased during the month about 20,

000 tons weekly, so that actual con-100 tons weekly, so that actual consumption in the manufacture seems to have been about 148,000 weekly against 157,000 in November. In any case the industry is doing vastly better than a year ago, when the output was less than 100,000 tons, but indications of excess of production over demand are found in further weakness of prices. Bessemer pig sells at \$11 80 at Philadelphia, and steel billets at \$17, Grey Force at \$9 15 at Pittsburgh, wire nails at 82 cents and barbed wire at \$185, other prices remaining as before, about the lowest on record. Low trices at Pittsburgh have checked business at the west and are attributed by some to the idea of purchasers that the recent reductions in wages and cost of materials must be followed by still lower prices. But the main fact is that the consumption is below expectations.
